Projects

Car Rental Website - <https://carreview-production.up.railway.app/cars>

A website that allows a user to rent cars for a given duration of their choice, it was a collaboration with a team of five. A school project.

Contract Management Application

This is an application that helps companies with a large pool of vendors manage their contracts by uploading them to the database, with a notification feature that sends notification for any contract that is 3 months away to expiry.

Wakili Ai

This is a legal consultant that aims to help legal practitioners in their daily work of drafting Case Laws. Legal experts can draft case laws, share to friends and social media among other features.

Image Capture Campaign Application

This was a simple yet functional tool that enables users to capture an image using a product and share it

online and earn them a point and thus promoting manufactures products pushing it to the market. Manufacturers are able to analyze users using their products.

Chatbot infrastructure

This is an application that is able to create chatbots by just filling a chatbot name in an input field and choosing look and feel for the chatbot itself.

EXPERIENCE

Software Developer | Mzawadi Group

July 2023 - Present | Ngong Road

- Working on a Chat Bot infrastructure for creating chat bots for automating virtual assistance for sacco's.
- Working on a product promotion web application for manufacturers, which is AI powered.
- Working on a Wakili AI frontend. A legal companion for legal advisory tasks.
- Working on a contract management system, which detects expired contracts and sends email notifications.

Software Developer Intern | Mzawadi Group

March 2024 - June 2023 | Ngong Road

- Working on a Chat Bot application's user interface for both Admin and users.
- Working on a product promotion web application for manufacturers.

Assistant Accountant Intern | Air France

March 2023 - February 2024 | Riverside Drive

- Working on account receivables and payables.
- Accounting on the company's spends and revenue generated
- Reconciling vendors accounts and receivables, to ensure revenue is well accounted for.
- Working on a database system for the accounting department for ease when retrieving contracts for vendors.

Banking Intern | Equity Bank

April 2018 - August 2018 | Kariobangi Nairobi

- Accounts opening and activation mostly for the 70 years plus initiative.
- Data cleaning for newly created accounts to ensure they are meeting set standards.

- ATM activations for new and existing accounts.

Key Accomplishments:

The Initiative was a success and now the aging population eligible for the program are able to receive their funds.

EDUCATION

Jomo Kenyatta University of Agriculture and Technology | Bachelor of Science in Computer Science and Mathematics

- Second class upper Division - Graduated

Moringa School | Certificate in Software Development

- Graduated

Volunteer Experience

- **Standard Chartered Marathon:** Giving water to the athletes and awarding them that completed the race.
